

EXPLOPRO

Afterschool Science Club

Join the ExploPro Afterschool Science Club - where we're getting messy with Science! The club meets each week during the school year. At each meeting, the club features a hands-on science activity for each "explorer" to make and/or do! From construction to destruction, from chemistry to physics to life-science, we are doing it all! Space is limited to 20 students per class, students must pre-register.

\$10/Class - \$100/full 12 week course for members
\$15/Class - \$170/full 12 week course for non-members
Mondays

- 2nd & 3rd Graders: 4:00-5:30 pm
- 6th - 8th Graders: 6:00-7:30 pm

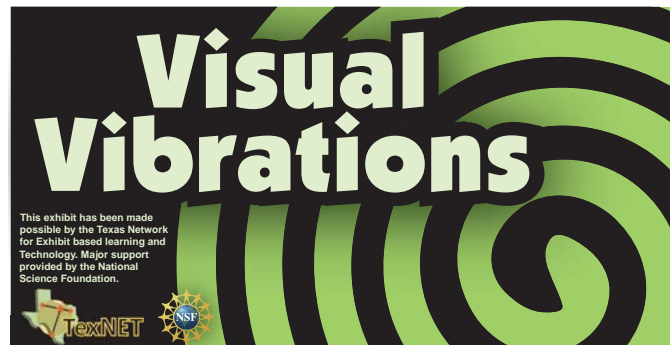

Tuesdays

- K-1st Graders: 4:00-5:30 pm
- 4th & 5th Graders: 6:00-7:30 pm

CAMPS AT THE IMAGINARIUM

Be sure to check in for our seasonal camps! We offer several camps and mini camps throughout the year including Spring Break Camp, Summer Camps, and mini camps during the Winter Break (after Christmas). Our camps offer a wide variety of topics, so there is something for everyone!

Visual Vibrations

Adventures of the Human Eye

Visual Vibrations is a collection of 12 interactive exhibits that explore the wonders of visual perception.

Visual Vibrations is made possible by the National Science Foundation and by TexNET, the Texas Network of Exhibit-based learning and Teaching, a cooperative of three regional museums (in Fort Worth, Tyler and Lubbock), and was developed by the Exploratorium of San Francisco, California, a museum of art, science and human perception.

Programs at the Imaginarium...

Here at the Imaginarium of South Texas, we pledge to bring you different workshops that you and your family can participate in during the month. We want to generate conversation and communication between you and your children, because these are the activities that provide the opportunities to make memories. We believe that family involvement is key to children's self-esteem, and our mission embraces the practice of providing an atmosphere that celebrates family in a learning environment to stimulate curiosity and discovery. In order to become life-long learners, children need to be exposed to rich and varied experiences that encourage creativity and foster individual expression.

Book knowledge can always be learned. The confidence necessary to pursue knowledge must be nurtured. We pledge to provide an environment that nurtures the creative spirit that makes each visitor unique, both in children and adults
